

## Ensemble Biography (Brief)

One of the rare professional string trios, the Aspen String Trio appears regularly throughout the U.S. and Canada, offering vivid, engaging programs that combine unusual and unexpected treasures alongside the standard canon and music of our time. In virtuoso performances of keen insight, musical intelligence, and good-natured humor, signature programs include “Remembered Voices,” a revelatory presentation of Harbison’s commanding *String Trio*, and “Sleepless in Leipzig.” Named after the Aspen Festival where trio members met as artist faculty colleagues, AST’s captivating outreach includes masterclasses, coachings, and inspiring professional development workshops for musicians of all ages.
